I am aware that different people are in eminent danger due to my husband, Jorge Alberto Gaitán Castro, Carol Echeverría and Juan Ignacio Berger actions and malicious intents.

While I was documenting my Violence Against Women's case, I came across different information that show that other people's lives are in danger.

In order to protect peoples' lives, I am attaching to this letter an external drive with all the information that I came across, to protect other people's lives and prevent any harm to others by this people.

Regards,
